

**Amendments to the Abstract**

Replace the abstract with the following replacement abstract:

A bag ~~comprises~~ has a bottom wall ~~(51)~~ and four side-wall portions ~~(11, 21, 31, 41)~~ that extend along respective edges of the bottom wall ~~(51)~~, and ~~further comprises~~ a front wall ~~(61)~~ that connects with ~~said~~ the side-wall portions, ~~wherein.~~ The bag has a bag strap ~~(3)~~ has with two ends that are connected to a first side-wall ~~portions~~ portion ~~(11)~~ by means of a connecting fitting ~~(12)~~, and ~~wherein~~ the strap ~~(3)~~ extends through a strap transit fitting on the bag ~~(1)~~. The strap transit fitting ~~(40)~~ is attached to a second side-wall portion ~~(11)~~ and the fitting ~~(12)~~ connecting the strap ends is able to pivot in the plane of the first side-wall portion ~~(11)~~. The strap is arranged to lie in flat abutment with and along the first and the second side-wall portions and also in flat abutment with and along the intermediate third side-wall portion ~~(31)~~.
